**DETAILED ACTION**

***Election/Restrictions***

1. Applicant's election of Group II in Paper No. 8 is acknowledged. However, upon further consideration, it is found that further restriction requirement is needed. Any inconvenience caused by this action is regretted.

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I claim(s) 29-43, drawn to a secure document article

Group II claim(s) 44-52, drawn to a document security system with optical modulator.

Group II, claim(s) 53-56, drawn to a system for reading a secure document

3. The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I is directed to a secure document article which does not comprise the use of an optical modulator disclosed in Group II. Furthermore, Group III claims which are drawn to a system for reading a secure document do not disclose the use of an optical modulator.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

Art Unit: 2872

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
